## **More threats to legitimate motorbiking!**

***The following has been received, and all members are urged to take action and write or send an e mail opposing these TROs.***

After the victory in Fullers Farm Road and Silkmore Lane (both lanes now open, repaired and for the 'foreseeable' future the threat of TRO is removed), we are once again faced with 2 new TRO's, this time in Hampshire - it's now the byway known as Cradle Lane, both parts, south of Alice Holt Forest - ridden by some of the Surrey and Hants riders, and others -(we may have already lost 'Butser Hill' this year - lets not lose another so soon!)

Can you please click onto this link below: all the info so far available is there, ( it has only been available this week, at very short notice). This covers what it's about, who to write to etc, but do it now please!!!

There are draft letters on this site that you can top and tail, so it will not take long to do!

[http://www.saynototro.com/cradle\\_lane.html](http://www.saynototro.com/cradle_lane.html)

The closing date is 28th October, 2011 and once again if we can gain enough support the threat may be averted.

**Please feel free to forward this to anyone else you think may be interested in making an objection.**
